

I have chose my raven art lesson plan that I created as a piece of evidence to demonstrate my knowledge for standard six of the TRB. This art lesson was a way to integrate Aboriginal content within the classroom and in my science unit. Having an aboriginal background as well as learning and teaching on Aboriginal land, I recognize the importance of interrelating aboriginal knowledge within our curriculum and lessons since it is such an important part of our Canadian history. From this experience, I have learnt how to successfully integrate Aboriginal knowledge in a way that can be appreciated by staff and students alike. I feel that this is an important aspect for me as a new teacher as I continue my teaching career because Aboriginal knowledge plays such a big part in the new BC curriculum and I am aiming towards being able to seamlessly integrate it within my daily teaching as an educator.
