

When I think of myself as a teacher I envision myself as being someone who values and cares for each individual student, is honest, and a role model in which all students regardless if they are in my class or not can trust and feel safe to come to whenever they need. I have chosen an excerpt from my final practicum report to demonstrate my knowledge and understanding of this standard. Without someone else's assessment of us I feel that it can be hard to stay on point. This excerpt confirms for me that I am actually a teacher who is succeeding in this area and becoming the teacher I have always wanted to be. This is an area in which I hope I continue to grow and develop in. I hope I never lose my passion and desire to be there for my students.
